USER GUIDE

Filling the Tornado-T Tank:

1. Remove the tank cartridge from the atomizer cone
2. Remove the end cap of the tank cartridge
3. Fill the tank cartridge, ensuring to leave a minimum of 1mm space at the top and reattach the end cap
4. Push the tank cartridge firmly into the atomizer cone until you hear a click
5. Screw the atomizer cone onto the battery
6. Before pressing the battery button take two sharp inhales and one gentle exhale on the mouthpiece of the tank cartridge
7. Place the mouthpiece of the tank cartridge into your mouth, depress the battery button and inhale gently for three-five seconds, release the power button and exhale when ready.
8. Refill your tank cartridge when the fluid level reaches approx 5mm in the viewing window when the device is inverted. Do not operate with an empty cartridge.

Battery Operation:

To turn the battery on or off click the power button 5 times within 2 seconds.

The Tornado battery has 2 modes of operation, regulated and unregulated power output.

Regulated output produces a constant output of 3.7V from fully charged to discharged.

Unregulated output produces a higher output of 4.2V which diminishes to 3.3V over the period of discharge.

To toggle between the 2 modes, turn the battery off by clicking the power button 5 times, once off hold the power button for approximately 5 seconds, the power button will flash white for regulated mode and orange for unregulated mode, press the power button 5 times to turn the battery back on in the mode selected.

Charging:

To charge the battery, connect the supplied USB cable to a suitable power source such as a computer or USB power adapter. The power button will light red until charging is complete when the light will go out to indicate charging is complete.

Battery charge remaining:

The power button LED will show white if the charge remaining is 60% or more, the LED will change to pale blue when below 60% charged. The LED will turn to dark blue when there is 10% or less remaining charge. When fully discharged the LED will flash 20 times and shut down, the battery will require charging before further use. The Tornado T can be used normally whilst being charged.

100% to 60% charged

60% to 10% charged

Less than 10% charged

PRECAUTIONS

- Store the Tornado T e-cigarette and its accessories away from children whilst not in use.
- Please only use the charging cable provided.
- Please dispose of dead batteries in accordance with your country's appropriate legislation.
- Do not charge the battery in a damp environment, in temperatures under 0°C or above 45°C.
- Do not carry batteries in a pocket or bag with other metallic objects.
