arc GTi Kit - GT 1.2ohm
Totally Wicked Switz 3 - GT 1.2ohm

FEATURES AND BENEFITS

- The GT 1.2ohm atomizer head provides an excellent vaping experience and suits vapers looking to resemble smoking as closely as possible.
- The GT-M 0.6ohm atomizer head delivers more vapour due to its higher wattage range. This atomizer head is suited to vapers who want more power.

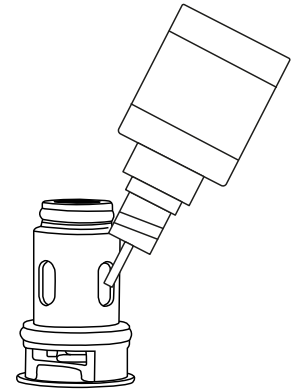

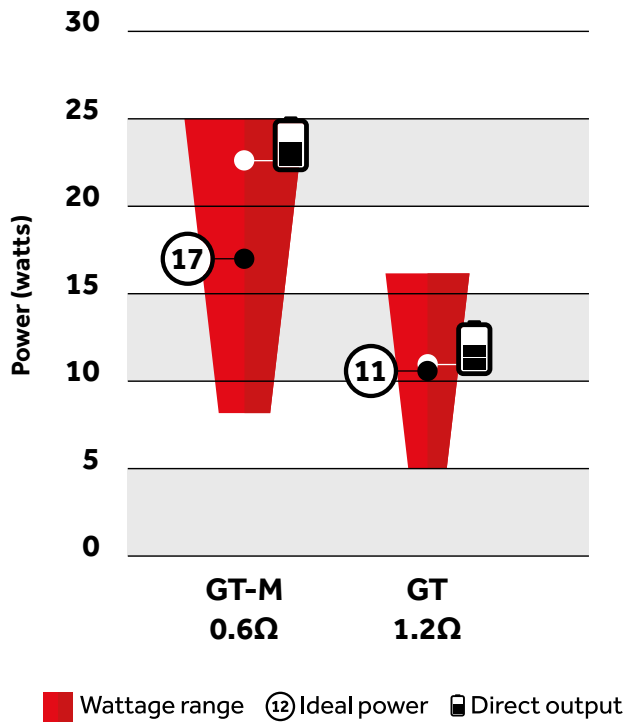

COMPATIBILITY

- All GT atomizer heads currently available are compatible with the Orbis. The Switz 3 is also compatible with GTL atomizer heads, although the performance is superior with the GT.

PRIMING

The GT atomizer heads are primed by dripping a few drops of e-liquid on the visible cotton inlets on the sides of the atomizer head.

After priming a new atomizer head and filling the tank, we recommend to wait 5 minutes before vaping to ensure the atomizer head is fully saturated.
