

PRODUCT INFORMATION

ATOMIZER HEAD RANGE : HW

The HW atomizer head family produces a large amount of vapour, and have the largest power range of Totally Wicked branded heads. HW atomizers are aimed at vapers who desire large vapour production from their e-cigarette.

AVAILABLE RESISTANCES, COIL MATERIAL AND PREFERRED POWER LEVELS

Resistance (ohms)	Coil Material	Wicking Material	Ideal Power (watts)	Power Range (watts)
HW-M 0.15	Kanthal	Natural Cotton	72	28 - 95
HW-M2 0.2	Stainless Steel	Natural Cotton	70	25 - 110
HW-N 0.2	Kanthal	Natural Cotton	90	25 - 150
HW-N2 0.2	Stainless Steel	Natural Cotton	85	25 - 125
HW1 0.2	SS316	Natural Cotton	35	20 - 80
HW3 0.2	Kanthal	Natural Cotton	70	45 - 120
HW1-C 0.25	Kanthal	Natural Cotton	40	24 - 100
HW2 0.3	Kanthal	Natural Cotton	60	25 - 110
HW4 0.3	Kanthal	Natural Cotton	65	35 - 110
HW-T2 0.2	Kanthal	Natural Cotton	70	35 - 90

STANDARD ATOMIZER HEADS

SUPPLIED WITH TANKS AND KITS:

Eleaf ELLO Duro tank - HW-M 0.15ohm, HW-N 0.2ohm
Eleaf ELLO tank - HW1 0.2ohm, HW2 0.3ohm, HW3 0.2ohm
Eleaf iJust 3 - HW-M 0.15ohm, HW-N 0.2ohm
Eleaf iKonn 220 - HW3 0.2ohm, HW4 0.3ohm
Totally Wicked AIO Slider Hellfire - HW1 0.2ohm
Totally Wicked arc Pico Total - HW1 0.2ohm, HW2 0.3ohm
Totally Wicked Slider Hellfire tank - HW1 0.2ohm, HW2 0.3ohm
Eleaf iJust 21700 kit - HW-M2 0.2ohm, HW-N2 0.2ohm
Eleaf iStick mix kit - HW-M2 0.2ohm, HW-N2 0.2ohm
Eleaf ELLO Pop tank - HW-M2 0.2ohm, HW-N2 0.2ohm
Eleaf Rotor tank - HW-T2 0.2ohm

FEATURES AND BENEFITS

- The HW-M2 and HW-N2 both include a leak resistant design, this design prevents leaking from the airflow.
- The HW-M2 & HW-N2 atomizer heads both include a leak prevention guard in the centre of the atomizer head.
- The HW-M & HW-N atomizer heads utilize multihole and net technologies respectively. This technology gives better flavour vapour production at high powers.
- Working power range of between 20 and 150 watts.
- All resistances are suitable for customers looking for high or ultra vapour production.
- The HW-T1 & HW-T2 atomizer heads include an air driven turbine, this turbine is designed to prevent spit-back from the atomizer head by directing e-liquid back to the cotton.

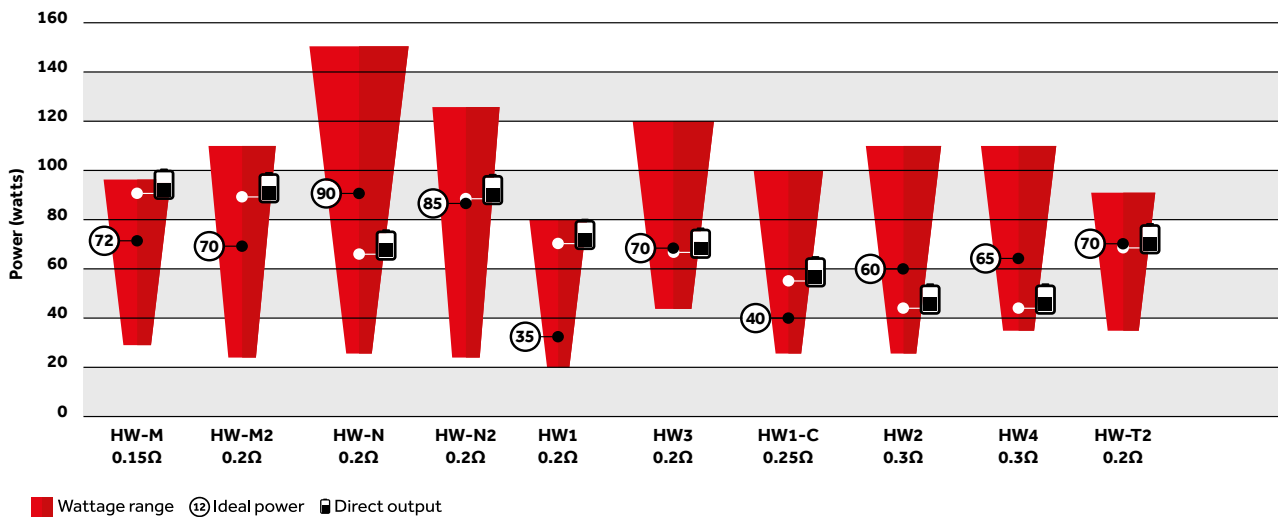

COMPATIBILITY

- Kanthal atomizer heads are compatible with power, bypass, variable voltage and smart modes.
- Stainless steel 316 atomizer heads are compatible with power, bypass, variable voltage, smart and temperature control modes.

HW ATOMIZER HEADS

ADDITIONAL NOTES

- The HW3 0.2ohm atomizer heads ideal wattage and direct output are very similar, making it the best HW atomizer head for direct output devices.
- The vapour density can be adjusted by adjusting the airflow, a more restricted airflow for a higher density of vapour, on tanks with adjustable airflow control.
- The Totally Wicked AIO Slider Hellfire and Totally Wicked arc Pico Total have a maximum output of 50 watts.
- The Eleaf iJust 3 has a maximum power output of 80 watts.

PRIMING

HW atomizer heads are primed by dripping a few drops of e-liquid into the central hole.

After priming a new atomizer head and filling the tank, it is recommended to wait 5 minutes before vaping to ensure the atomizer head is fully saturated.
