

PRODUCT INFORMATION

ATOMIZER HEAD RANGE : SW

VIDEO LINK Click [HERE](#) to review the video accompanying this information.

SW atomizer heads are some of the best entry level atomizer heads we provide. Available in four different resistances, they are specifically tailored to suit people looking to replicate the smoking experience.

AVAILABLE RESISTANCES, COIL MATERIAL AND PREFERRED POWER LEVELS

Resistance (ohms)	Coil Material	Wicking Material	Ideal Power (watts)	Power Range (watts)
0.8	Nickel-Chrome	Natural Cotton	20	15 - 30
1.2	Nickel-Chrome	Natural Cotton	17.5	10 - 24
1.5	Nickel-Chrome	Natural Cotton	15	8 - 22
1.8	Nickel-Chrome	Natural Cotton	11	7 - 20

STANDARD ATOMIZER HEADS SUPPLIED WITH TANKS AND KITS:

Switz2 kit - 1.5ohm

Rival kit - 1.5ohm, 0.8ohm

Rival tank - 1.5ohm, 0.8ohm

FEATURES AND BENEFITS

- The SW 1.5ohm atomizer head produces a well-rounded vaping experience suited to regular vapers looking to replicate a smoking sensation, this atomizer head suits the majority of our customers.
- The SW 1.8ohm atomizer head has a slightly more restricted airflow than the SW 1.5ohm atomizer head and a higher resistance, which may not appeal to all vapers, but should be recommended to customers looking to decrease vapour production.
- The SW 0.8ohm atomizer head has a greater airflow than both the SW 1.8ohm and SW 1.5ohm atomizer heads and the largest vapour production in the range.
- The SW 1.2ohm atomizer head sits between the SW 0.8ohm and SW 1.5ohm in performance and is an excellent choice for Rival tank users looking for a compromise between the supplied atomizer heads.
- Working power range of between 7 and 30 watts.

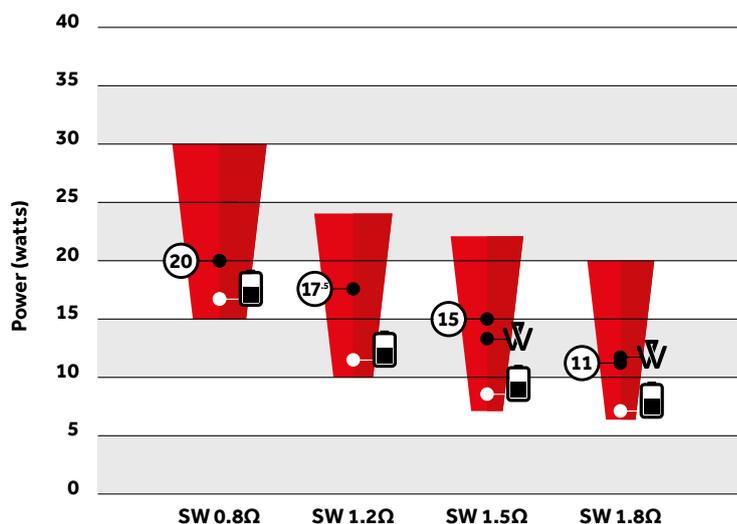

COMPATIBILITY

- Nickel-chrome atomizer heads are compatible with power, bypass, variable voltage and smart modes.
- The Switz2 requires a minimum resistance of 1.5ohm. so can only be used with the 1.5ohm and 1.8ohm atomizer heads.

PRODUCT INFORMATION

ATOMIZER HEAD RANGE : SW

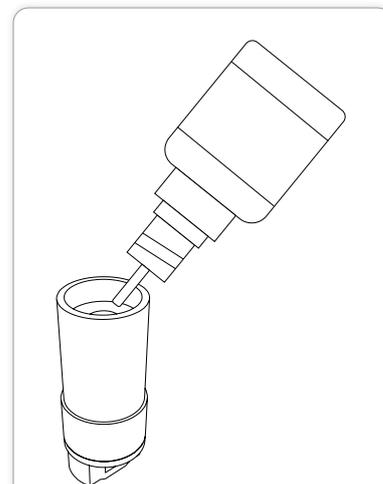

SW ATOMIZER HEADS

■ Wattage range ⊕ Ideal power 🔋 Direct output W Switz2 output

ADDITIONAL NOTES

- The Switz2 has a regulated output of 4.5 volts, higher than the average direct output of 3.7 volts. This is shown in the performance graph above.
- The SW 0.8ohm atomizer head is suitable for customers with a variable wattage device looking for increased throat hit.

PRIMING

SW atomizer heads are primed by dripping a few drops of e-liquid into the central hole.

After priming a new atomizer head and filling the tank, it is recommended to wait 5 minutes before vaping to ensure the atomizer head is fully saturated.
